OCCS-M82-24

MEMORANDUM FOR: Chief, Engineering Division, OC

FROM: [REDACTED]

Chief, Communications Security Division, OC

SUBJECT: COMSEC Support to Projects [REDACTED] and MESSAGE
HANDLING FACILITY

1. Due to recent events leading to the reassignment and resignation of personnel on rotational assignment from OC-ED/CPS, we must inform you that the Communications Security Division will be unable to provide the necessary COMSEC support to both projects [REDACTED] and MESSAGE HANDLING FACILITY. Limited support on specific COMSEC issues can be provided for the interim period prior to the designation of a replacement for [REDACTED]. Additionally, the delay in providing the required support to these projects will be extended because of the training and lead-time necessary to read in on the projects. We are hopeful that this will only be a temporary concern for both of us and that a suitable replacement is soon identified for this unique assignment. (C) A9c4.1

2. Any additional information concerning this subject or subsequent requests for support on specific COMSEC issues relating to the projects [REDACTED] or MESSAGE HANDLING FACILITY should be addressed to [REDACTED] Building. (C) A9c5.2 [REDACTED]
